About ATT

Our Values

ATT2030 sets a values-driven culture that is explicit about how we work and lead:

Belonging & Becoming: we meet each child where they are and refuse to leave them there - giving them both roots and wings.

Integrity & Excellence: we act ethically, celebrate excellence, and pursue high standards in all that we do.

High Trust, High Accountability: decision-making sits close to pupils and communities; principals are trusted as strategic leaders; the central team acts as expert partner; accountability is professional, dialogic, and focused on learning and improvement.

Our Three Goals

Everything in ATT2030 is organised around three interlinked goals that describe the kind of people - pupils and adults - that we are forming:

Capable: equipped with the knowledge, skills, and emotional readiness to perform to a high standard, adapt to change, and contribute meaningfully.

Competent: possessing the knowledge, habits, and judgement to get things done – well, reliably, and independently – handling setbacks and making steady progress.

Confident: feeling safe, happy, and known – secure enough to take risks, speak up, and grow with purpose and integrity.

Designated Teacher	Sarah Turner Sarah.turner@attrust.org.uk	

1. The kinds of SEND that are provided for:

Our academy currently provides additional and/or different provision for a range of needs, including:

Area of need	Condition
Communication and interaction	- Autism Spectrum Disorder - Speech and language difficulties
Cognition and learning	- Specific learning difficulties, including dyslexia, dyspraxia, dyscalculia - Moderate learning difficulties
Social, emotional and mental health (SEMH)	- Attention Deficit Hyperactive Disorder (ADHD) - Attention Deficit Disorder (ADD) - SEMH
Sensory and/or physical	- Hearing impairments - Visual impairment - Multi-sensory impairment - Physical impairment

All Academy Transformation Trust Academies have adopted the Judith Carter Model. This is a strengths based model and means we will also identify your child's strengths and needs across the 7 Cs:

- Curriculum
- Cognition
- Creativity
- Coordination
- Communication
- Compassion
- Control

2. The Academy's SEND support overview and 'Core Offer'.

Our staff closely monitor the progress made by all students and ask advice from the SENDCO, as soon as they have concerns about any of their students. We then follow the graduated approach documented below and **the Assess, Plan, Do, Review** cycle. A concern might relate to a student's attainment, progress, behaviour or social, emotional or mental health needs.

Register	SEN stage	Description of stage and actions required	Responsibility
Not on SEND support register	Stage T (Teacher)	- Teachers use a range of classroom assessments to identify students of concern and relevant targets - Teachers then plan to support those students through adaptive teaching e.g. teacher tweaks and adaptations	Class Teacher Student

		- Additional classroom support/interventions may be implemented. (see non-exhaustive list below) - The provision being made for these students is regularly reviewed as well as their progress towards targets.	
	Stage 1	- If concerns persist following a period at stage T, concerns will be shared with the SENDCO and parents - Additional support/interventions may be planned. - The student's progress and any interventions will be monitored and reviewed carefully for impact by class teacher and SENDCO - Referrals may be made to external agencies for assessment and additional support. (list below) - Additional in-school assessments may be carried out. (list below) - For speech and language concerns – if the issues relate solely to speech, the student will stay at stage 1.	Class Teacher SENDCO Parents Student
Added to SEND support register. Parents notified and involved in termly reviews	Stage 2 SEND K A student has SEND if they have a learning difficulty or a disability which calls for specialist provision to be made.	- Following a review of Stage 1 and of the student's learning, SEMH or social needs, if concerns persist and the student is requiring support which is additional to and different from standard quality first teaching, they will be moved to stage 2. - Referrals may be made to external agencies for assessment and additional support. (list below) - Additional in-school assessments may be carried out. (list below) - Teacher, parents, student and SENDCO will set SMART targets and plan relevant provision and interventions. - Targets will be captured in a learning support plan which will be reviewed termly with parents.	Class Teacher SENDCO Parents Student
Request for statutory assessment of SEND	Stage 3 SEND E	- For some students, stage 2 support will not be adequate to enable them to make expected progress towards their targets. - Following evidenced cycles of SEND support, the academy may apply for an Education, Health and Care Plan. From the agreement to assess, the local authority coordinates an assessment of needs within a 20-week window. The student, parents and academy are fully involved in this process. Needs will be identified, targets set, and plans made for provision to meet these needs. - These students will continue to be supported by a learning support plan which is reviewed on a termly basis and will have a statutory annual review of their EHCP	Local Authority SENDCO Class Teacher Parent Student

3. Our Academy's Core Offer

Academy assessments	Academy Interventions	External agencies
Speech and Language BPVS Language Link	Speech and Language Speech link intervention Read, write, Inc Talk About	NHS Speech and language therapy (SALT)

They can carry out a vast array of assessment to unpick children's specific needs and support with targets and provision planning. Specialist Teacher Service (STS) They are a team of teachers with different specialisms. They can support with: learning assessments, support for learning needs such as spelling, writing and reading, Dyslexia assessments and issues such as anger, anxiety, resilience or emotional regulation.
SEMH assessments PASS- pupil attitudes to school and self RCADS – anxiety assessment	SEMH Draw and Talk (12 weeks) ELSA (Emotional Literacy Support Assistant) Zones of Regulation Lego Therapy Sharp thinking – emotional regulation intervention Active minds – anxiety-based intervention Rolling Thunder – Anger management Yoga – NCC Community Team Boing Boing - Resilience	SEMH services (CAMHS) services who support students with mental health Autism support Team – experienced teachers who specialise in supporting students with autism, or who present with social communication difficulties. The Neuro developmental team who assess for ASD and ADHD. Breckland Mental Health team – aimed at lower level SEMH concerns to prevent escalation. Children can be referred into this team by SSOs, safeguarding team and HoY. Prospects – linked with the early help team and family hub. School/early help or family support team can refer children to Prospects for emotional regulation support.
Sensory/motor assessments Sensory Processing Measure	Physical/sensory interventions Gym intervention – mentoring/sensory circuits/physical exercise Sensory room Sensory Circuits Fidget toys / Wobble cushions	NHS services NHS – Occupational Therapy (OT) Children with fine or gross motor concerns, sensory needs, executive functioning difficulties NHS Audiology children with hearing needs or auditory processing concerns. Community paediatrician Support children who present with areas of developmental delay and can coordinate

		support from other relevant professionals and arrange medical tests. School nursing NHS Physiotherapy Support NHS – Occupational Therapy (OT) Children with fine or gross motor concerns, sensory needs, executive functioning difficulties NHS Audiology children with hearing needs or auditory processing concerns. Community paediatrician Support children who present with areas of developmental delay and can coordinate support from other relevant professionals and arrange medical tests. School nursing NHS Physiotherapy Support children with physical needs Norfolk Just One Number – A range of support via the NHS
	Other interventions Sensory room Movement breaks	

4. Supporting students moving between phases and preparing for adulthood

We are very aware that moving to a new class or academy can be a time of worry and anxiety for students and their families

Secondary Transition Key Stage 2-3

Open Evening is held in September for prospective students. In addition, tours are encouraged for families who would like to see the school in action and ask any specific questions about how their child's needs can be met.

During the spring/summer term the Head of Year and Deputy SENCO / SENCO visit all of the primary school to gather information about students who will move up to Iceni Secondary. In addition, primary teachers are asked to complete a document with key information about each student.

Moving to a new school year: Information about your child's SEND will be shared with their new subject teachers in their learning support plans and One Page Profiles. Based on individual needs, additional transitional arrangements may also take place and you can discuss these with the SENDCO if appropriate.

As appropriate, we arrange meetings with the parents/carers of incoming students to discuss how we can best welcome their child into our community.

Key Stage 3-4

Students receive assemblies about the options process and what each subject involves. There is also an options evening where parents can also understand the process and help their child(ren) make informed decisions. Some subjects also have taster sessions. Students also have the opportunity for further discussion with staff before making their choices.

Key Stage 4-5

Students have careers advisor meetings in KS4 as well as assemblies lead by Post-16 providers. In Year 10 students visit the College of West Anglia for a taster day in a subject of their choice. Students are also supported to apply for courses and have additional careers meeting if needed.

In year admissions / Managed Moves

As part of our admission process, students who are in year admissions are screened by the SEND team so that support can be planned carefully for when they start, should anything arise from the screeners. This is in addition to collecting information about the students' individual needs and support plans from their current settings.

5. Adaptations to the curriculum and learning environment

All our teaching staff have accessed training in making tweaks and adaptations to their teaching, to recognise strengths and meet needs across the 4 broad areas of need, which our Judith Carter Model breaks down into the 7Cs areas such as:

- Adapting our curriculum to ensure all students are able to access it , for example by grouping, 1:1 work, adapting the teaching style or content of the lesson.
- Adapting our resources and staffing and deploying TAs to support.
- Using recommended aids, such as laptops, coloured overlays, visual timetables, larger font, standing desks and attention aids
- Adapting our teaching, for example, giving longer processing times, pre-teaching of key vocabulary, and reading instructions aloud.

6. Expertise and training of staff

All staff attend training on various SEND areas throughout the year. We attend staff training to share knowledge, strategies and experiences and to ensure consistency of the academy's approach for students with SEND.

Teachers and support staff attend training run by outside agencies that are relevant to the needs of the students they are working with.

The SENDCO works very closely with specialists, who provide advice and direct support regularly. In the past year, staff have accessed a range of training courses including

List training delivered/accessed in last academic year

Draw and Talk – LSA

Safeguarding training – all staff

Mental Health for Education Professionals – all staff

Prevent Duty – all staff

FGM Awareness and Prevention – all staff

Safer recruitment – SLT

Dyslexia Awareness Level 3 – HLTA

Herts for Learning Reading Fluency – x 2 staff

Teaching and Learning – all teachers

- Do Now tasks and the science behind them.
- Direct instruction and ways in which to embed this into lessons.
- Establishing behaviours for learning with the BFL programme.
- Introduction to the Learning Episodes (setting the tone, do now, explicit instruction, modelling, challenge and application, orderly exit).
- Modelling
- Challenge and Application
- ATT Teaching and Learning Pedagogical Principals and how to apply for students with SEND.

Behaviour for Learning – all teachers

SEND Community meetings – SENCO / Deputy SENCO

Safeguarding community meetings – DSL

CPOMs training to all staff

Professional conduct

Supporting progress for PA students

Weekly safeguarding briefings have covered:

- Truancy
- CPOMs rationale
- Types of abuse
- Process of raising a child's concern
- Child Protection V Safeguarding
- Smoothwall/online safety
- Prevent
- HSB
- Vaping
- FGM
- Sextortion
- Domestic Abuse

DSL has also covered training in the following:

- NIDAS 2 day domestic abuse champion training
- YGAM gambling and gaming awareness education
- Tackling Child Exploitation webinar
- NAASA conference - developing a strategic approach to safeguarding
- NAASA conference - referrals
- NAASA conference - Role of the DSL
- NAASA conference - Supporting staff through a mental health crisis
- NSFT eating disorder training

We also have a number of staff completing a range of NPQ's

7. Disabled Access and Provision

We adhere to the requirements, as per the Equality Act 2010 to make reasonable adjustments for any student who has specific long- or short-term health needs or a disability. This might include exploring the scope for and following recommendations about physical adaptations to the academy or curriculum, providing access for students with disabilities.

Curriculum accessibility is closely monitored and assessed by the class teachers, under the direction of the SENDCO, subject leaders and the Senior Leadership team.

For further information please see our Accessibility Plan.

8. Securing equipment and facilities

It may be that your child's needs mean we need to secure:

- Extra equipment or facilities
- Additional adult support
- Additional training for our staff
- External specialist expertise

We will consult with specialist agencies and services who loan or supply specialist equipment and get recommendations about how best to support your child to access their learning. We will use our notional budget and a threshold sum of £6000 to cover any necessary costs before seeking additional assistance from the Local Authority.

9. Involving parents and carers

If you think your child might have SEND or that they are struggling in a specific subject area, the first person you should tell is your child's class teacher who will investigate or pass on any concerns to our SENDCO as appropriate. Our staff will follow the Assess, Plan, Do, Review procedure detailed above.

If your child has a learning plan, we will provide termly reports on your child's progress. At these review points, we will:

- Set clear outcomes for your child's progress
- Review progress towards those outcomes
- Offer you the opportunity to discuss your views and the support we will put in place to help your child make that progress
- Identify what we will do, what we will ask you to do, and what we will ask your child to do

The SENDCO may also attend these meetings, to provide extra support.

10. Exam Access arrangements

Students who have been diagnosed as having a learning difficulty may be eligible for extra time and / or other "access arrangements" to complete internal examinations and public examinations.

Parents/carers are asked to liaise with the SENDCO in good time, with respect to this so we are able to evidence that this is a students 'normal way of working'. In KS4, students who may benefit from exam access arrangements are assessed by an external assessor. Here, anyone eligible will be awarded this support for their exams. It is important to note however, that whilst a student may have accessed this during their time as school, if they do not meet the threshold within the assessment, then it would not be awarded. This is where evidence of the 'normal way of working' is vital.

11. Access to extra-curricular and enrichment activities

All of our extra-curricular activities and Academy visits are available to all our pupils, including our extra-curricular clubs.

All students are encouraged to go on our academy trips, including our residential trips. If appropriate, our staff will contact you to discuss any reasonable adjustments which need to be made to enable your child to participate.

All students are encouraged to take part in sports day, performances and special workshops.

No student is ever excluded from taking part in these activities because of their SEND need and we will make whatever reasonable adjustments are needed to make sure that they can be included

Where appropriate, parents are invited in to meet staff leading trips to ensure that all support in planned to enable full access.

12. Support for Looked after Children and Previously Looked after Children with SEND

Our designated teacher is also out SENDCO and makes sure that all teachers understand how a looked-after or previously looked-after student's circumstances and their SEND might interact, and what the implications are for teaching and learning.

Children who are looked-after or previously looked-after will be supported much in the same way as any other child who has SEND. However, looked-after students will also have a personal education plan (PEP). We will make sure that the PEP and any SEND support plans or EHCPs are consistent and complement one another.

13. Complaints about SEND provision

If you have any complaints about this information report or SEND in general, please contact our SENDCO.

A copy of the full complaints procedure is available on the academy website.

14. Contact details of support services for parents of students with SEND

- SENDIASS– This is an independent service that is not affiliated to the Local Authority or any academies. This service can share information and will explain parental rights regarding SEN and disabilities. They also hold a range of coffee mornings and information and support sessions Norfolk's Special Educational Needs and Disability Information, Advice & Support Service ([SENDIASS](#))
